Speakers – Steve Moss and Keith Brown, CoAcS

- focus on implementation problems
- trouble shooting with version 3
- what's new & future developments
- how to submit yellow cards electronically

Topic - Can I believe the findings of this systematic review/ meta-analysis and explain them to others?

Speaker – David Erskine

- describe the criteria used to evaluate the quality of a systematic review/ meta-analysis
- use the above for assessing the validity and applicability of the results of a systematic review/ meta-analysis
- practice presenting my findings in a workshop setting

Topic – Complementary Medicine Enquiry Masterclass

Speaker – Fiona Woods & Gail Woodland

- Know how to handle a complementary medicine enquiry involving interactions or adverse effects
- Know how to get the most out of the Complementary Medicine Information Resources available to you
- Have an appreciation of the background information and preparation required prior to submitting an enquiry to WMIC
- Understand the role of WMIC as a tertiary referral service

Topic – The future of your MI service

Speaker – Trevor Beswick, Ben Rehman and Mark Easter, chief pharmacist at University Hospitals Coventry & Warwickshire NHS Trust.

- To review the operating environment, particularly the financial constraints, that the hospital pharmacy service will experience in the next few years
- To consider the ways in which local MI services can demonstrate their worth in adding value and improving quality and safety of medicines use in a severely restrained financial environment.

Topic – Medication errors

Speaker – Gillian Cavell, Kings Hospital

- Identifying actual and potential adverse drug events
- Assessing the risk of potential adverse drug events
  - Failure Modes and Effects Analysis
  - Barrier analysis
- Medication Safety and MI - potential for collaborations

## Friday parallel sessions

Topic - MiCAL – new & improved

Speaker – Ben Rehman / Iram Hussein

- Be aware of the content in MiCAL (v11) and appreciate how MiCAL can help manage the time spent training.
- Be able to select appropriate example enquiries from section two of MiCAL (v11) to assist in the performance management of trainees.
- Contribute to future developments of MiCAL.

Topic – Skills for delivering training

Speaker – Tiffany Barrett, South West regional manager for CPPE

- MI audit standards now recommend those doing any training should have had some training themselves in how to train others but many MI pharmacists have no opportunity to do this. This will be run using the CPPE e-learning package on 'helping others learn'
- State five basic criteria for adult learning
- Define two different teaching methods that could be used within the workplace

Topic – New developments in anticoagulation

Speaker – TBC

- Know which new anticoagulants are available/in development
- Understand the place of the new anticoagulants in the treatment of AF in comparison with warfarin
- Understand the financial and implementation issues with use of the new anticoagulants

Topic – How to apply risk management to MI

Speaker – Trevor Beswick & Fiona Woods

- To use IRMIS reports to identify potential manageable risks in MI
- To use standard risk management tools to assess risks in MI and create a practical risk register

Topic – The Injectable Medicines Guide

Speaker – Sue Keeling & Robin Burfield

- Understand how the guide can be localised to meet the needs of their Trust
- Have an overview of the injectable medicines guide website and recent developments
- Be able to describe the how the guide may be presented to different professional groups:-
  - have an understanding of what should be included in any paper copies produced from the website
  - have an understanding of how to produce a paper copy tailored for local use
